CONTRACTING FOR PROFESSIONAL SERVICES

The Board of Education will make certain that professional services are secured in a manner that protects the integrity of the process, ensures the prudent use of taxpayer dollars and provides a high quality standard of service, in accordance with law and regulation. Professional services are defined as services requiring special skill and/or training, such as legal services, medical services, auditing services, property appraisals or insurance.

Purchasing professional services does not require competitive bidding. The Board directs the School Business Administrator to take measures to ensure that a highly qualified professional is secured through the prudent and economical use of public money.
