More than 1,000,000 Doctors Nationwide

Most CDPHP plans include a national network.* By seeing an in-network doctor, you pay significantly less than if you see an out-of-network doctor. In addition, all plans include worldwide coverage for emergency care.

CDPHP makes it easier than ever to locate a doctor with the redesigned online search tool, Find-A-Doc. Visit **findadoc.cdphp.com**, enter some brief information, and you'll be on your way to finding the doctor or specialty provider you need!

Within Find-A-Doc, you'll have access to an extensive list of preferred locations for free or reduced cost radiology, X-ray, laboratory services, and more.

^{*} Available for EPO and PPO plans. Not available for HMO plans. Refer to your member materials or call member services at the number on your ID card to determine complete benefits.

Where to go for care

NEED AN APPOINTMENT?

In a non-emergency situation, it's important to start with your primary care doctor. Your physician knows your health status best and can treat many health issues.

When choosing a new primary care doctor, consider one who participates in the CDPHP Enhanced Primary Care program. These doctors are known for providing better, more cost-effective care. Look for the Enhanced Primary Care icon when searching on Find-A-Doc.

YOUR DOCTOR ISN'T AVAILABLE?

You have access to live video doctor visits 24/7 through your mobile device or computer. Learn more about virtual options for physical health at **cdphp.com/doctorondemand** and view your virtual options for mental health and substance use at **cdphp.com/mentalhealth**.

MORE URGENT NEED?

If your doctor isn't available, visit an urgent care location before going to the ER. Urgent care has short wait times and is more economical. In fact, **visits to the ER** are generally not covered for non-emergency services.

Many specialists also offer walk-in and urgent care services that would save you time and money compared to a visit to the ER.
