Instructional Technology Plan - 2026-2029 Instructional Technology Plan**V. NYSED Initiatives Alignment**

Page Last Modified: 09/18/2025

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities "everywhere, all the time" (National Technology Plan)?

The Schalmont Central School District recognizes that it will take an aligned, comprehensive approach across several support systems to help children develop the cognitive, academic, emotional, and physical competencies they will need to succeed in 21st Century Life.

The Partnership for 21st Century Skills defines 21st Century Standards as those that:

"Focus on 21st Century skills, content knowledge, and expertise. They build understanding across and among core subjects as well as 21st Century interdisciplinary themes. They emphasize a deep understanding rather than shallow knowledge. They engage students with real world data, tools, and experts they will encounter in college, on the job, and in life. Students learn best when actively engaged in solving meaningful problems. 21st Century standards allow for multiple measures of mastery."

To succeed at college, career, and life in the 21st Century students must be supported in mastering both content and skills. The Schalmont Central School District has categorized eight support systems towards helping students achieve the outcomes of the 21st Century Skills Initiatives.

These support systems were cross-checked against the International Standards for Technology in Education (ISTE) to create the comprehensive plan. In addition, we analyzed and reviewed the Next Generations Standards to determine what parts of our plan should be sustained and where gaps may exist in alignment with these standards that need to be addressed.

Instructional Technology is an integral component in furthering our collected work to develop the Profile of a Schalmont Graduate in the 21st Century. Our stakeholder team has determined the following six competencies as priorities to further develop within our next strategic plan:

- Information, Communication and Technology Literacy
- Critical Thinking and Problem Solving
- Initiative and Self-Direction
- Metacognition: Learning how to learn
- Flexibility and Adaptability
- Collaboration and Teamwork

While we are still committed to helping students perform at proficient and mastery levels on NYS assessments and NYS Regents exams, we believe that to truly make our students ready for their life after high school a quarter into the 21st century, we are obligated to equip them with the above skills in a way that can be measured and demonstrated to potential colleges and employers. Such work aligns wonderfully with the State's commitment to a Portrait of a Graduate work.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (Select all that apply)**

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☒ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all
